

# CASE STUDY

## St George Hospital Acute Services Building

### New Construction

Kogarah (Sydney), NSW, Australia (2017)

#### OWNER

NSW Health

#### CONTRACTOR

Multiplex

#### DISTRIBUTOR

KRYFIX

#### PRODUCTS USED IN APPLICATION

Krystol Internal Membrane (KIM)

#### BACKGROUND

Located at Kogarah, in the southern suburbs of Sydney, this \$277m development, completed by Multiplex and designed by Jacobs Architects, includes construction of a new Acute Services building. This includes 8 operating theatres, 128 new inpatient beds, 2 cardiac catheter laboratories, a new sterilising department as well as helipad and carpark.

KRYFIX provided Krystol Internal Membrane (KIM) admixture to this project.

#### SOLUTION

Krystol Internal Membrane (KIM) is a chemical admixture used for the treatment of concrete & concrete products to protect against water intrusion, leakage, cracking, chemical attack, & corrosion of reinforcing steel.

Krystol Internal Membrane (KIM) was applied to the roof deck and helipad of this development.
